

EX-IMPORT
P T Y L T D

Product name: Elleebana ElleeLUXE Foam Patches
Manufacturer: Ex-Import Pty Ltd
This revision issued: 9th June 2025
Page 1 of 3

Section 1: Identification of Chemical, Product and Company

Address: Unit 5/92 Township Drive, Burleigh Heads, Queensland, 4220 AUSTRALIA
Telephone: +61 7 5576 6388
Web/E-mail: www.elleebana.com or info@elleebana.com
Substance: Eye pad
Trade name: Elleebana ElleeLUXE Foam Patches
Product Use: For protection of lashes during eyelash extension applications
Creation Date: June 2025
Revision Date: June 2029

Section 2: Composition, Information on Ingredients

Pure Substance:

Ingredients I.N.C.I

I.N.C.I.	CAS Number:	Weight:
Polyvinyl Chloride PVC Foam	9006-86-2	90%
Acrylate adhesive	Not assigned	3%
Releasing paper	Not assigned	7%

Section 3: Potential Health Effects

Inhalation: Does not cause respiration irritation

Eye: Does not cause eye irritation with correct use

Skin: Does not cause skin irritation with correct use

Section 4: First Aid Measures

Inhalation: Move to receive fresh air and keep at resting position that's comfortable for breathing.

Eye Contact: Rinse cautiously with flowing water or saline for several minutes.

Skin Contact: Gently wash with plenty of soap and water. If skin irritation or rash occurs, seek medical advice

Section 5: Fire Fighting Measures

Specific Hazards: This product is non-combustible

Flash point: N/A.

Ignition Temperature: N/A.

Explosive Limits: N/A

Hazardous decomposition materials (under fire condition): Silicone gel

Special protective equipment for firefighters: Proper protective equipment including breathing apparatus must be worn when approaching a fire in a confined space.

Section 6: Accidental Release Measures

Avoid contact with spilled or released material. For guidance on selection of personal protective equipment see chapter 8 of this material safety data sheet. See chapter 13 for information on disposal. Observe the relevant local and international regulations.

Personal precautions, protective equipment and emergency procedures: There is no actual hazardous of this product. The release is not applicable.

Environmental precautions: Prevent product from entering drains.

Methods and materials for containment and cleaning up Additional advice: Absorb spilled material in dry sand before moving to a covered container. Adhered or collected material should be promptly disposed of in accordance with appropriate laws and regulations.

Prevention of secondary hazards: Fire-extinguishing devices should be prepared in case of a fire.

Section 7: Handling and Storage

Handling Precautions: Wash hands and face thoroughly after handling. Use with adequate ventilation. Handle the product with care to avoid generation of dust. Avoid contact with high temperatures or open fires.

Storage Requirements: Keep container tightly closed. Store in a cool, dark and well-ventilated place, away from high temperature and ignition sources. Keep container tightly closed and sealed until ready for use. Store away from incompatible materials such as oxidizing agents.

Section 8: Exposure Controls and Personal Protection

Engineering controls: No special requirements.

Exposure limits: No data available.

Personal protective equipment

Respiratory protection: Respirator for protection against particles.

Hand protection: Protective Gloves

Eye / Face protection: Wear goggles if applicable

Skin and body protection: Wear appropriate protective clothing if applicable

Section 9: Physical and Chemical Properties

Physical appearance: White, solid.

Odor: No data available

Odor Threshold: No data available

pH: No data available

Boiling point/range: No data available

Melting point/range: No data available

Flash point: No data available

Explosion limits

Lower: No data available

Upper: No data available

Ignition Temperature: No data available

Vapour Pressure: No data available

Vapour Density: No data available

Density: No data available

Solubility: No data available

Section 10: Stability and Reactivity

Stability: This material is stable under normal conditions

Reactivity: No special reactivity has been reported

Conditions to avoid: Excess heat, ignition sources, incompatible materials

Incompatible materials: Strong Oxidising agents, strong acids, strong alkalis

Minimum durability before opening: 24 months

Minimum durability after opening: Use Immediately

Section 11: Toxicological Information

Acute Toxicity: No data available

Skin Irritation: Not expected to be irritation.

Eye Contact: Not expected to be irritation.

Respiratory Irritation: Not expected to be irritation.

Skin Sensitation: Not expected to be a skin sensitizer

Aspiration Hazard: No data available

Gem Cell Mutagenicity: No data available

Carcinogenicity: No data available

IARC = No data available

NTP = No data available

Reproductive toxicity: No data available

Section 12: Ecological Information

Ecotoxicity: No data available

Persistence/degradability: No data available

Bio-accumulative potential: No data available

Mobility in soil: No data available

Section 13: Spillage and Disposal Considerations

Material Disposal: Recover or recycle if possible. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste classification and disposal methods in compliance with applicable regulations. Do not dispose into the environment via drains or water courses.

Container Disposal: Dispose in accordance with prevailing regulations. Preferably to a recognised collector or contractor. The competence of the collector or contractor should be established beforehand.

Local Legislation: Disposal should be in accordance with applicable regional, national, and local laws and regulations.

Section 14: Transport Information

Land (as per ADR classification): this substance is not classified as dangerous under ADR regulations.

IMDG: this substance is not classified as dangerous under IMDG regulations.

IATA (country variations may apply): this substance is not classified as dangerous under IATA regulations.

DOT (US): This substance is not classified as dangerous under DOT regulations.

Section 15: Regulatory Information

This substance is not regulated as a dangerous substance. For detailed regulations you should contact the appropriate agency in your country.

European/International regulations

European Labelling in accordance with EC Directives

Hazard Symbols: Not applicable

Risk Phrases: Not applicable

Safety Phrases: Not applicable

Section 16: Other Information

This MSDS contains only safety-related information. For other data see product literature.
