

SAFETY DATA SHEET

INFINITY BY THE BROW GEEK AQUA DROPS–JAN 2026

1. PRODUCT & COMPANY INFO & IDENTIFICATION

- Product name: Aqua Drops Hybrid
- Manufacturer Info: Brow Geek USA LLC
- Address: Houston TX USA
- Website: www.infinityhybrid.com
- Email: infinity@hybridtint.com
- Emergency Information: Contact Brow Geek USA LLC or your local health centre

Intended for All Colours of Aqua Drops

2. COMPOSITION & INFORMATION ABOUT THE INGREDIENTS

COMPOSITION

- Ingredients

Ingredient Name	C.A.S No.
DEMINERALISED WATER SODIUM	7732-18-5
LAURETH SULFATE	9004-82-4
MONOETHANOLAMINE	141-43-5
PROPYLENE GLYCOL	57-55-6
PARAPHENYLENE DIAMINE	106-50-3
HYDROXY ETHYLCELLULOSE EDTA	9004-62-0
– ETHYLENEDIAMINE TETRA	6381-92-6
ACETIC ACID	
SH-OBLIGOPEPTIDE-1	1807528-51-3

- PH Value: 7.1– 9.2

3. HAZARD IDENTIFICATION

- Emergency Overview:

This is a personal care or professional cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use. Additional information on toxicological endpoints is available from the supplier upon request.

- Potential Health Effects:

Skin:

May cause irritation or sensitization in sensitive individuals. Depending on the nature of any reaction experienced, a similar reaction may occur on subsequent uses of hair color products.

Ingestion:

The product used as intended is not expected to cause gastrointestinal irritation. Accidental ingestion of undiluted product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhea.

4. FIRST AID MEASURES

- First Aid after Inhalation:

Usual measure required. Move to fresh air. Seek medical advice if necessary.

First Aid after Skin contact:

- Thoroughly rinse with water. Discontinue use of product. If discomfort persists and/or the skin reaction worsens, contact a physician immediately. In cases where discomfort persists and/or medical attention is sought, do not use hair color products again until the specific nature of the skin reaction and the causative agent has been identified by a dermatologist and appropriate medical advice provided.

First aid after Ingestion:

- No special measures required. In the event of unintentional swallowing, do not force vomiting. Seek medical attention if necessary. In case of accidental ingestion dilute with fluids (Water or milk) and treat symptomatically

5. EXPLOSION & FIRE HAZARD

- Suitable extinguishing media:

Foam, CO2, Dry Extinguishing Powder

- Unsuitable extinguishing media:

Nothing to Report

- Protective equipment:

Keep away from sources of ignition. Do not smoke. Respiratory and eye protection may be required for fire crews when exposed to smoke or fumes.

The hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases.

There is zero risk of explosion from this product under standard circumstances if it is involved in a fire.

This product is likely to decompose and oxidise only after heating to dryness.

- Fire and explosion protection:

This product is made up of inflammable material with low risk. The product may only form ignitable mixtures or burn only up on heating above the flash point.

6. ACCIDENTAL RELEASE MEASURES

- - Methods for cleaning up:
 - Clean up manually with water.
 - For Professional Settings:
 - Absorb liquid and scrub the area with detergent.
 - Dilute with water.
 - If splash hazards exist; use gloves and other protective clothing (apron, boots, etc.) to prevent skin contact.
- For Warehouse/Storage Settings:
 -

7. HANDLING & STORAGE

- Precautions for safe handling

Avoid formation of dust and aerosols.

Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.

- Conditions for safe storage, including any incompatibilities.

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

- Hand protection: Gloves
- Do not inhale dust. Protective Mask in case of formation of dust
- Respiratory protection: Use usual individual protective equipment.
- Physical protection: No special measures required
- Occupational exp limit:

Exposure limits have not been established for any of the significant ingredients in this product.

No special equipment is usually needed when occasionally handling small quantities.

The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

This product should be kept in a cool place, preferably below 30°C. Keep containers tightly closed.

9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

Not classified as hazardous conform EEC Dangerous Substance Directive and Dangerous Preparation Reactivity:

- | | |
|---|--|
| <ul style="list-style-type: none">• • Conditions To Avoid:• Incompatibility (Material To Avoid): | <p>It presents no significant reactivity hazards.</p> <p>Heat, fire, flame and other sources of ignition</p> <p>Oxidizers, strong acids and organic compounds.</p> |
|---|--|

Reactions:

Conditions to avoid: Nothing to report

Substances to avoid: Nothing to report

Hazardous Decomposition:

Nothing to report

11. TOXICOLOGICAL INFORMATION

- Directives. If the product is used properly, it will not cause any injuries to your health.
- Acute toxicity: In compliance with generally accepted uses and quantities are no negative impacts to be expected.

LD50 oral: not determined

LD50 dermal: not determined

LC50: not determined

Inhalation: There is no expected negative impact.
Ingestion: There is no expected negative impact.
Skin contact: There is no expected negative impact.
Eye contact: There is no expected negative impact.

- Skin corrosion/irritation: In compliance with generally accepted uses and quantities are no negative impacts to be expected.
- Serious eye damage/irritation: In compliance with generally accepted uses and quantities are no negative impacts to be expected.
- Respiratory /skin sensitization: In compliance with generally accepted uses and quantities are no negative impacts to be expected. Deep inhalation may cause respiratory troubles such as watering, sneezing.

Germ cell mutagenicity: There is no expected negative impact.

Carcinogenicity: There is no expected negative impact.

Reproductive toxicity: There is no expected negative impact.

STOT-single exposure: No information available

STOT-repeat exposure: No info available

Aspiration hazard: No information available

.

12. ECOLOGICAL INFORMATION

The Product ingredients are expected to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios. Packaging components are compatible with the conventional solid waste management practices.

13.DISPOSABLE CONSIDERATIONS

Disposal: Disposal should be in accordance with federal, State and provincial/local regulations.

For Professional settings: The following instructions are for consumer user only. Do not discharge product into natural waters without pre treatment.

For warehouse/storage settings: products covered by SDS, in their original for, when disposed as waster, are considered non hazardous waste.

14. TRANSPORT INFORMATION

- General recommendations: Not classified as a dangerous good under transport regulations.
- Protect against humidity.

UN no: not classified

Finished packaged product transported by Road(ADR/RID): Non hazardous

Finished packaged product transported by Sea (IMDG): Non hazardous

Finished packaged product transported by Air (IATA/ICAO): Non hazardous

15. OTHER REGULATORY INFORMATION

National Fire Protection Association Codes: Health: 2 Fire: 1 Reactivity: 0 Other: None

Workplace Hazardous Materials Identification System: Class D; Division 2, Subdivision B –Skin Irritation/Sensitizer Class E;

Corrosive Material: This regulatory information represents the product, in its consumer packaging.
