

SAFETY DATA SHEET

INFINITY BY THE BROW GEEK

HYDRATING CLEANSER 60ML - JANUARY 2026

1. PRODUCT & COMPANY INFO & IDENTIFICATION

- Product name: Hydrating Cleanser 60ml
- Manufacturer Info: Brow Geek USA LLC
- Address: Houston TX USA
- Website: www.infinityhybrid.com
- Email Emergency: infinity@hybridtint.com
- Information: Contact Brow Geek USA LLC or your local health centre

2. COMPOSITION & INFORMATION ABOUT THE INGREDIENTS

COMPOSITION

Ingredients

Water, Propylene Glycol, Sodium Surfactin, Polyglutamic Acid, Hyaluronic Acid, Hydrocotyle asiatica extract, Sodium Lauryl sulfoacetate (SLS), Aloe Vera.

PH Value

3.45

3. HAZARDS IDENTIFICATION

- Emergency Overview:

This is a personal care or professional cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use. Additional information on toxicological endpoints is available from the supplier upon request.

- Potential Health Effects:

Skin:

May cause irritation or sensitization in sensitive individuals. Depending on the nature of any reaction experienced, a similar reaction may occur on subsequent uses of hair color products.

Ingestion:

The product used as intended is not expected to cause gastrointestinal irritation.

Accidental ingestion of undiluted product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhea.

Eye:

Contact may cause mild to moderate transient irritation. Redness and/or stinging may occur.

Inhalation:

May cause mild, transient respiratory irritation. Avoid prolonged contact to concentrated vapours.

4. FIRST AID MEASURES

- First Aid after Inhalation:

Usual measure required. Move to fresh air. Seek medical advice if necessary.

- First Aid after Skin contact:

Thoroughly rinse with water. Discontinue use of product. If discomfort persists and/or the skin reaction worsens, contact a physician immediately. In cases where discomfort persists and/or medical attention is sought, do not use hair color products again until the specific nature of the skin reaction and the causative agent has been identified by a dermatologist and appropriate medical advice provided.

- First aid after Ingestion:

No special measures required. In the event of unintentional swallowing, do not force vomiting. Seek medical attention if necessary. In case of accidental ingestion dilute with fluids (Water or milk) and treat symptomatically.

First aid after Eye contact:

Following accidental eye exposure, thorough rinsing of the affected area for 15-20 minutes with clean cold water is recommended. If discomfort or irritation persists, contact a physician. If the eyes or face becomes swollen during or following use, consult a physician or emergency room immediately.

5. EXPLOSION & FIRE HAZARD

- Suitable extinguishing media:

Foam, CO2, Dry Extinguishing Powder

- Unsuitable extinguishing media:

Nothing to Report

Protective equipment:

- - Keep away from sources of ignition. Do not smoke. Respiratory and eye protection may be required for fire crews when exposed to smoke or fumes.
 - The hazard in fires is usually inhalation of heated and toxic or oxygen deficient (or both), fire gases.
 - There is zero risk of explosion from this product under standard circumstances if it is involved in a fire.

This product is likely to decompose and oxidise only after heating to dryness.

- Fire and explosion protection:

This product is made up of inflammable material with low risk. The product may only form ignitable mixtures or burn only upon heating above the flash point.

6. ACCIDENTAL RELEASE MEASURES

- Methods for cleaning up:
 - Clean up manually with water.
- For Professional Settings:
 - Absorb liquid and scrub the area with detergent.
- -
- For Warehouse/Storage Settings:
 - If splash hazards exist; use gloves and other protective clothing (apron, boots, etc.) to prevent skin contact.

7. HANDLING & STORAGE

- Precautions for safe handling

Avoid formation of dust and aerosols.

Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.

- Conditions for safe storage, including any incompatibilities.

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

- | | |
|---------------------------|--|
| • Hand protection: | Gloves |
| • Respiratory protection: | Do not inhale dust. Protective Mask in case of formation of dust |
| • Physical protection: | Use usual individual protective equipment |
| • Occupational exp limit: | No special measures required |

Exposure limits have not been established for any of the significant ingredients in this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

This product should be kept in a cool place, preferably below 30°C. Keep containers tightly closed.

9. PHYSICAL AND CHEMICAL PROPERTIES

- | | |
|----------------------------------|-------------------|
| • Appearance: Colour: Odour: | Foam Purple |
| • Freezing/Melting Point: | Characteristic. |
| • Initial Boiling point & Range: | No specific data |
| • Flashpoint: Solubility: | Not Available |
| • Specific Gravity: | Not determined |
| • Flammability: Explosive: | Soluble NTR NTR |
| • Decomposition | Nothing to report |
| | Nothing to report |

10. STABILITY AND REACTIVITY

- | | |
|--|---|
| • Reactivity: | It presents no significant reactivity hazards |
| • Conditions To Avoid: | Heat, fire, flame and other sources of ignition |
| • Incompatibility (Material To Avoid): | Oxidizers, strong acids and organic compounds |
| • Chemical stability | The product is stable under normal conditions |

Reactions:

- | | |
|--------------------------|-------------------|
| Conditions to avoid: | Nothing to report |
| Substances to avoid: | Nothing to report |
| Hazardous Decomposition: | Nothing to report |

11. TOXICOLOGICAL INFORMATION

- Directives. If the product is used properly, it will not cause any injuries to your health
 - Acute toxicity: In compliance with generally accepted uses and quantities are no negative impacts to be expected.
- | | |
|--------------|----------------|
| LD50 oral: | not determined |
| LD50 dermal: | not determined |
| LC50: | not determined |

Inhalation:	There is no expected negative impact.
Ingestion:	There is no expected negative impact.
Skin contact:	There is no expected negative impact.
Eye contact:	There is no expected negative impact

- Skin corrosion/irritation: In compliance with generally accepted uses and quantities are no
- negative impacts to be expected. Serious eye damage/irritation: In compliance with generally
- accepted uses and quantities are no negative impacts to be expected. Respiratory /skin sensitization: In compliance with generally accepted uses and quantities are no negative impacts to be expected. Deep inhalation may cause respiratory troubles such as watering, sneezing.

Germ cell mutagenicity:	There is no expected negative impact.
Carcinogenicity:	There is no expected negative impact.
Reproductive toxicity:	There is no expected negative impact.
STOT-single exposure:	No information available No
STOT- repeated exposure:	information available No information
Aspiration hazard:	available

12. ECOLOGICAL INFORMATION

The Product ingredients are expected to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios. Packaging components are compatible with the conventional solid waste management practices.

13. DISPOSABLE CONSIDERATIONS

Disposal: Disposal should be in accordance with federal, state and provincial/local regulations. For Professional settings: The following instructions are for consumer user only. Do not discharge product into natural waters without pre treatment. For warehouse/storage settings : products covered by SDS, in their original for, when disposed as waster, are considered non hazardous waste.

14. TRANSPORT INFORMATION

ADG Code: This product is not classified as a Dangerous Good. No special transport conditions are necessary unless required by other regulations.

15. REGULATORY INFORMATION PORT INFORMATION

AICS: All of the significant ingredients in this formulation are compliant with NICNAS regulations.

EU Classification: Not subject to classification according to CLP Regulation (EC)No.1272/2008. Not subject to classification according to Directive 67/548/E Cor Directive

16. OTHER INFORMATION

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product
