If irritation occurs, rinse with water.

5. EXPLOSION & FIRE HAZARD

- Suitable extinguishing media: Foam,CO2,Dry Extinguishing Powder Unsuitable extinguishing media: Nothing to Report
- Protective equipment: Self-contained breathing apparatus
- Fire and explosion protection: This product is made up of inflammable material with low risk
-
-

6. ACCIDENTAL RELEASE MEASURES

- Methods for cleaning up:
 - Clean up manually with water.
- For Professional Settings:
 - Absorb liquid and wash the area with detergent.
 - Dilute with water.
 - After cleaning flush away excess with water
- For Warehouse/Storage Settings:
 -

7. HANDLING & STORAGE

- Precautions for safe handling

Avoid direct contact with the soft tissue of the eye

- Conditions for safe storage, including any incompatibilities.

Store in cool dry place. (0-30°C)

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

- Hand protection: None
- Respiratory protection: None
- Physical protection: No special measures required
- Occupational exp limit:

Exposure limits have not been established for any of the significant ingredients in this product.

No special equipment is usually needed when handling.

This product should be kept in a cool place, preferably below 30°C. Keep containers tightly closed.

9. PHYSICAL AND CHEMICAL PROPERTIES

- | | |
|----------------------------------|---------------------|
| • Appearance: | • Pink Liquid Pink |
| • Colour: | • Coconut |
| • Odour: | • No specific data |
| • Freezing/Melting Point: | • Not Available Not |
| • Initial Boiling point & Range: | • determined |
| • Flashpoint: | • Soluble |
| • Solubility: | • NTR |
| • Specific Gravity: | • NTR |
| • Flammability: | • Nothing to report |
| • Explosive: | • Nothing to report |
| • Decomposition | • |
| | • |

10. STABILITY AND REACTIVITY

Product is Stable

- | | |
|--|--|
| Reactivity: | It presents no significant reactivity hazards. |
| • Conditions To Avoid: | Heating, Oxidizing agents may cause exothermic react |
| • Incompatibility (Material To Avoid): | Oxidizers, strong acids and organic compounds. |
| Chemical stability: | • The product is stable under normal conditions |

Reactions:

Conditions to avoid:

Substances to avoid: Nothingto report
 Nothingto report

Hazardous Decomposition:

Thermal decompositionmayproduct Carbon
dioxide

11. TOXICOLOGICAL INFORMATION

- Directives. If the product is used properly, it will not cause any injuries to your health.
- Acute toxicity: In compliance with generally accepted uses and quantities are no negative impacts to be expected.

Inhalation: There is no expected negative impact.
Ingestion: There is no expected negative impact.
Skin contact: There is no expected negative impact.
Eye contact: There is no expected negative impact

- Skin corrosion/irritation: None.
- Serious eye damage/irritation: None
- Respiratory /skin sensitization: None

.

12. ECOLOGICAL INFORMATION

The Product ingredients are expected to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios. Packaging components are compatible with the conventional solid waste management practices.

Physical Chemical Eliminability- None

Biological degradability – Non

Heavy metals - None
